BIOGRAPHY

Alex is a Case Coordinator and Special Investigator at Mason Law Firm. He is the visionary behind a number of the firm's precedent settings projects, including the recent Fourth Corner Credit Union litigation.

As a Case Coordinator, Alex assists in communications with the Firm's clients, ensuring that clients dealing with difficult, stressful, personal situations – arising from personal injuries and accidents, business dealings, or run ins with the law, are handled with the compassion, concern and respect that is at the heart of all of the Firm's client relationships. People are comfortable talking to Alex because of his gregarious, genuinely interested and concerned manner.

As a Special Investigator, from Charleston, South Carolina, to Denver, Colorado, from Asheville, North Carolina to Abaco, Bahamas – Alex has been the Firm's boots on the ground in many legal matters, providing valuable intel and perspective that translates into the effective handling of legal matters for the Firm's clients.

Alex has also been instrumental in helping the Firm craft effective jury arguments as he has an innate ability to see things as they are and boil a complicated matter down to a sentence or two – that plainly explains what happened in a given situation.

Whether it's guiding you to the Summit of a 14,000 foot mountain, or helping you through a difficult situation, you can trust Alex Mason.
